For South Central Indiana and Central Kentucky

Prepared 12/5/2013 6:39 AM EST

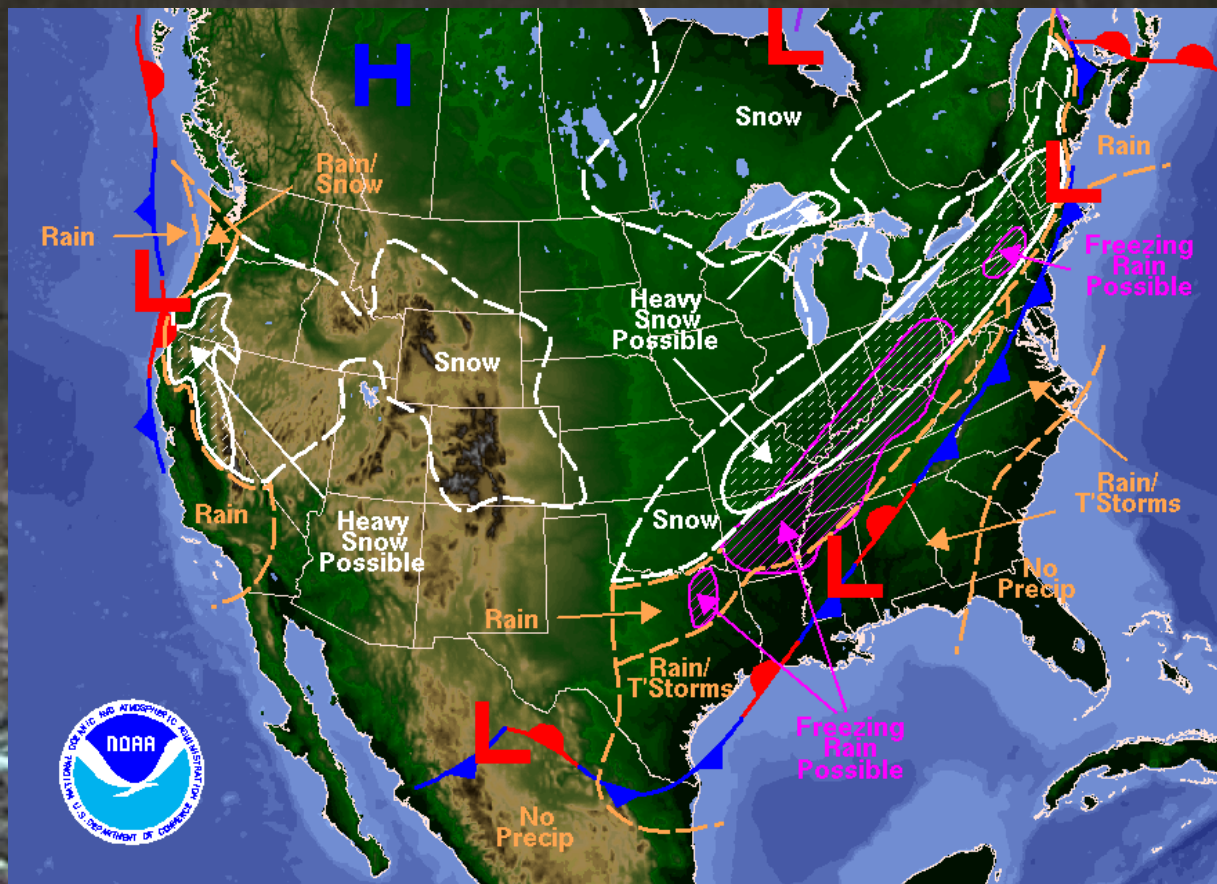

Ryan Sharp/Michael Paddock

lmk.ops@noaa.gov

NWS Louisville KY

National Weather Service Louisville KY

Overview – Tonight Through Friday

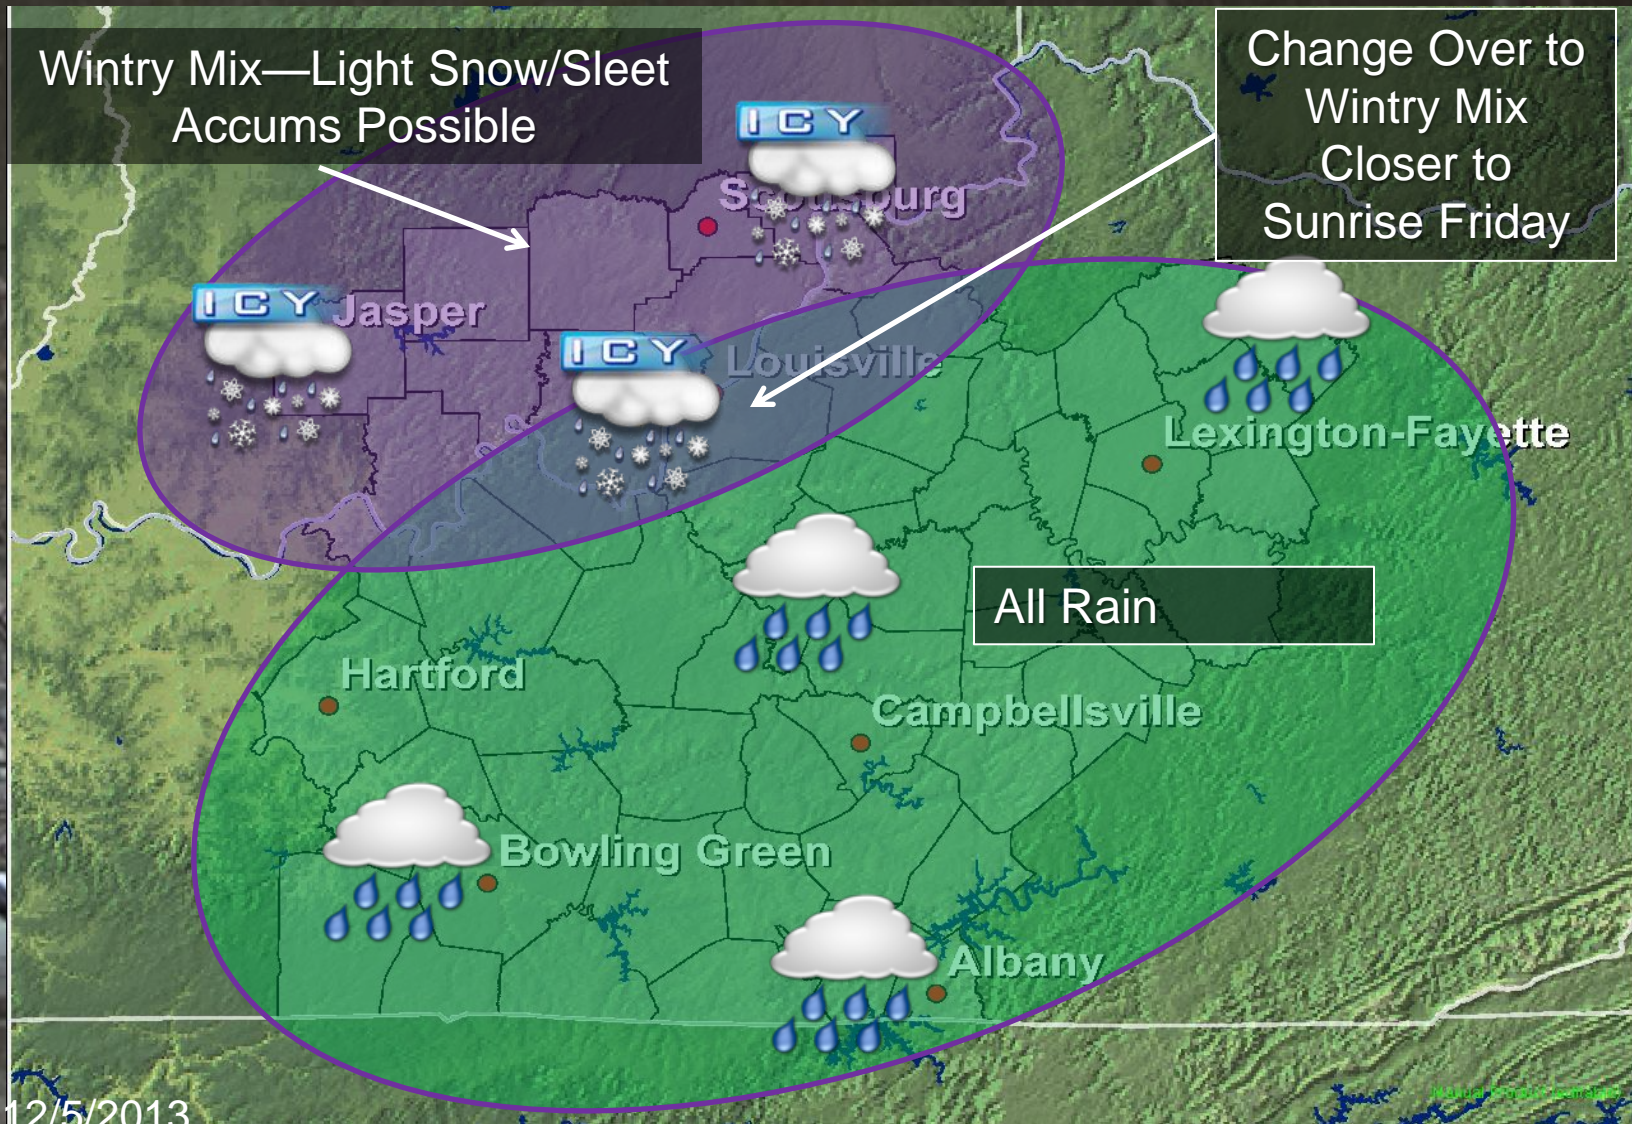

- Arctic cold front will be southeast of the area, with colder air pushing into the Ohio Valley tonight and Friday.
- Low pressure to our southeast, coupled with an upper-level disturbance over Arkansas will trigger wintry precipitation
- Sleet, freezing rain, and snow will spread southeast from southern Indiana this evening into central Kentucky Friday.

Weather Forecast for Fri, Dec 06, 2013, issued 5:09 AM EST Thu, Dec 05, 2013
DOC/NOAA/NWS/NCEP/Weather Prediction Center
